IS STILL IN FULL BLAST, WORKING DAY AND night to supply the daily increasing wants of the Bay, er and other States.

In order the better to do this, the proprietors have erected a large brick Foundry in addition to their former premises. They have added to their stock of tools a large Planing or Shaping Machine, three Lathes and a Machine for making bolts and are now putting in a Steam Engine of [illegible] horse power to drive the whole, thereby adding to their former facilities for the successful carrying on of the Foundry, Machine, Engine and Blacksmithing business. In regard to the character of the work got up by this

the Proprietors refer to that in successful operation through the country as their best recommendation, as it can speak for itself. All they can say is, that they are both PRACTICAL MECHANICS, and know how work should be done as well as the next man.

They continue to manufacture FLOUR and SAW MILL GEARING, and STEAM ENGINES, on the most approved principle.

They have always on hand a large stock of BRASS WORKS, such as GUAGE AND CYLINDER COCKS, OIL CUPS AND COCKS, and STEAM WHISTLES. Also TURTON'S FILES which they will sell at the lowest cash price.

They are also Agents for EASTMAN'S PATENT STEAM GUAGES, which are well worth the attention of all those who use Steam Engines.

In conclusion, they invite a continued share of the patronage of their old friends, and solicit a call from all those in want of Saw or Flouring Mill Work, assuring them that no exertions will be spared to render the Old Eagle worthy of the reputation it has already gained.

Their motto is, "*Excelsior.*"

The Huntington Trial—The Courts and the Newspaper Press.

We have already mentioned, though briefly, that the counsel for Huntington, the New York forger, have had the boldness to set up for him the extraordinary defence of INSANITY, the theory which they set forth being that no sane man could deliberately perpetrate such enormous, astounding frauds. They even propose to show that, *so far* from 3 or 400,000 dollars with which he is charged, being the limit of his operations, he has actually used *millions* of forged paper! If Huntington's counsel prove a tithe of what they set forth in their opening, the doors of the Lunatic Asylums ought to open wide to receive the Wall Street men who furnished him with money on such securities, unless, as was probably the case in many instances, these brokers *knew* that the securities were forged, and were participants in the crime.

But we did not set out to comment upon the barefaced impudence of the defence, which is only a further development of that sentimentality which, in these latter days, sympathizes with and rewards the criminal, while it punishes the honest and innocent man by refusing him justice and redress of grievance. We intended to call the attention of our readers to another feature of this case, not without its parallel elsewhere.

The daily papers of New York have expressed themselves very freely in relation to the plea of Insanity set up for the criminal; whereupon Mr. Brady, one of his counsel, arose the next morning in Court, and complained of the course of the press, as likely to prejudice the case of his client, and begged Judge CAPRON to "charge" in relation to the matter. The Judge, nothing loth, thereupon charged at the subject, *full tilt*, and recommended the Jury not to read any newspaper accounts of the trial or remarks concerning it, graciously concluding with the following suggestion:

> After the trial is finished, and the rights of the people and the *prisoner* have been determined and settled forever, editors have a right to publish, print, and read their own views upon the subject, provided they do it with the courtesy that belongs to gentlemen."

Concerning this judicial *dictum* the N. Y. *Times* very properly, as we think, remarks—and its remarks are of universal application:

> This is set forth as a judicial determination of the limits within which the liberty of the Press may be exercised. For ourselves, we repudiate the restriction. We claim, and shall at discretion exercise, the right of discussing anything that may be said or done in any public Court of law, upon any subject of public interest and importance. Whether Judge Capron or the Jury think it safe to read what we may deem it our duty to say, is their affair, not ours.
>
> This whole system of criminal trials is becoming a farce. Ignorance of the whole case is the first and last thing required of those who are to decide upon the question of guilt or innocence. No man must have formed any opinion, imbibed any impression, or read any account of the case. Utter ignorance of what may have been reported of it in the newspapers is insisted on; inability to read those papers, indeed, seems to constitute the perfection of a juryman. When, after a long chase, twelve such men have been captured and caged, the prisoner is set before them, but is not allowed to be examined, or say a syllable, on the point which they are anxious to ascertain, and which he is perhaps, the only man who thoroughly understands. Witnesses are called—not so much to tell what they know, as to be subjected to the torturing arts of opposing lawyers—whose business it is to browbeat, puzzle, confuse and entice them into as many contradictory statements as possible, by way of leading the Jury to a clear and accurate knowledge of the facts. When this is all done, then the lawyers take the Jury in hand, each doing his utmost to refute what the other may have said, to draw off attention from the strong points of his opponent, to confuse the judgment of jurors, or by appeals to sympathy and prejudice to secure a verdict. The Judge winds up the whole proceeding by a despairing attempt to disentangle the snarl which five or six days have been employed in weaving, and then the twelve are sent out to make what they can out of the hopeless mass of confusion into which the whole affair has been thrown.
>
> And throughout the whole the constant and repeated warning of the Judge is—don't read the newspapers! This may be essential to the harmony of the whole proceeding, for a perusal of these journals might offset and embarrass the efforts of counsel to confuse and confound the Jury. It is safe certainly to let them alone, and we trust that nobody connected with the Huntington trial will encounter the risk of reading what we have now had to say upon the subject.

Generally, on the subject of newspaper reports of trials, the same paper says.

> Whenever a great issue of public interest is tried in a Court of justice, the public has a right to stand by and watch its *progress*; and every member of that great body corporate has a right to express his opinion upon each successive step that may be taken therein. The few whose leisure will allow them to do so, go in person. The vast multitude go by proxy. Their "miraculous organ," the PRESS, goes and listens for them, and lays before them daily a report more or less complete of all that may have been said or done which they would probably be desirous to know. And it enjoys and often exercises on their behalf, the right of expressing its own opinions upon the conduct of the prisoner and his counsel,—of those who prosecute in the name of the People, and even of that awful personage, the JUDGE himself.
>
> This is the state of things which exists here in the nineteenth century. The liberty of discussion which is thus exercised is a public right, guaranteed by the Constitution, held by the Press as a portion of the public and as in some sense its special representative, and conducive on the whole beyond all doubt to the public good. If it is abused it can be punished. If facts are misstated, they can be corrected. If character is assailed, the assailant can be punished. But within the limits of law the right of every man in the community to listen to what the Judge, the prisoner, the Counsel or the Jury, in any judicial trial, may say,—to repeat it, and to comment on it as he may see fit, is as perfect as any other right, and no more to be disputed or called in question than the right of property or of personal security. Yet every now and then it is pompously controverted in some Court of Justice, and the Press which sees fit to exercise it, is reprimanded and held up to public censure by counsel on the one side or the other, and sometimes by the presiding Judge himself. The Counsel is generally excusable for his course, for it is part of his plan,—it operates as an appeal *ad misericordiam*, and by enlisting sympathy on one side or the other, is often made to help his cause.—The Judge has usually no other motive for falling into the custom, than an amiable desire to augment his own importance and exhibit the extent and depth of his own profound wisdom.

Peat Beds in Wisconsin.

We publish to-day a communication, which will be read with interest, in relation to the beds of peat discovered near Madison. There can be no doubt that such beds abound in this State, in almost every county, in the depressions left by the draining of small lakes at a former period.—Indeed, we were informed yesterday that Dr. BAKER, of this city, has lands in Washington Co., on which there are immense deposits of this material.

We cannot overrate the importance of this discovery to the people of Wisconsin, furnishing as it does a cheap and inexhaustible supply of fuel for household and mechanical use.

Col. SLAUGHTER passed through this city a day or two since on his way to Boston, to submit some specimens of the peat to Dr. HAYES, the eminent analytical chemist of that city.

The late vote in Jefferson County.

Our friends of the Watertown *Chronicle*—and how many others in that city we do not know—persist in charging us with unfriendly feelings towards their place, and especially with being opposed to and "casting our influence against" their county-seat project. We have already stated, half a dozen times, that we don't care two pence about the county-seat question, and have from the beginning let it alone, as we always do such questions. The people interested can always settle them, *somehow*. We shall not take the trouble to make this disavowal again.

With regard to the vote of Watertown, the *Chronicle* adds the two wards which were formerly in Dodge Co. and shows that the city vote in November was 1318, so that the county seat vote only shows an increase of 771 in six or seven weeks, and tries to persuade itself that it is a legitimate increase. Jefferson, the present county seat town, cast over 1700 votes in December to about 700 in November. We believe both of these votes to be as far from the legal poll as was the 3d ward vote in this city in November.—County seat questions seem to *drive* people from all sense of right in the exercise of suffrage.

Information Wanted.

Mrs. LYON, of Lyons Farms, New Jersey, is very anxious to hear of her husband, WILLIAM H. LYON, who left her about 8 months ago to come to this state. He was injured on the cars coming west, but wrote a few times. He went first to Waupacca, but wrote to his wife last from this city on the 15th of September. She fears that he is dead, as he was in poor health. He was a tailor by trade—a small man, nearly bald, about 36 years old, and deaf of one ear.

Any information concerning him can be sent to this office, or direct to his *wife*.

SAULT ST. MARIE CANAL.—The receipts for tolls on the Sault St. Marie Canal for the past season amounted to $11,950,44. The business of the Canal has been as follows, as given in the Detroit *Advertiser*:

COMPARATIVE STATEMENT OF FREIGHT.

Up Freight.	1855.	1856.	Total.
Barrel bulk	76,468	119,259	195,727
Tons	4,373	11,565	15,941
Estimated value, except merchandise			$1,500,100
Down Freight.			
Copper in tons	3,196¾	5,726½	8,923¼
Iron blooms, in tons	1,040	781	1,821
Iron ore, "	1,447	11,297	13,094
Fish, bbls	1,573	2,605	4,178
Valuation			$2,575,080
Probable value of merchandise			1,000,000
Total			$3,575,080

From a casual inspection of the list of up-freights, it may be gathered that the agricultural resources of the Upper Peninsula are in process of development; while articles of merchandize have increased, pressed hay, in bundles, has fallen off in proportion of 4,465 for 1855, to 3,323 for 1856; corn meal in the proportion of of 2,467 bbls for 1855, to 1,144 for 1856. Liquors, ale and beer are on a steady increase.—Potatoes are almost wholly raised above for use, the importation being less than a thousand bushels in two years. Lumber, to the extent of 395,295 feet, has passed upwards during the past season.

☞ ICE IN THE LAKE.—Off Cleveland the ice has commenced forming in earnest. The *Herald* states that a strip composed of fragments and a mile or two wide, extends along the shore. Considerable ice can be seen, in detached pieces, at a distance. Sandusky Bay, too, we understand, is frozen for some distance from shore.

☞ A letter from Gen. Pomeroy, in the Springfield (*Mass.*) *Republican*, states that he has formed a new settlement in Kansas, at the mouth of the river Saline, far beyond the settlement of any white man. The valley is beautiful, and the grass is green all through the winter. Fifteen men have taken up claims in the new town. The Saline is very salt, from the numerous salt springs which run through it.

Lynx caught in Waukesha County.

DELAFIELD, Wednesday, Dec. 24.

MESSRS EDITORS:—Perhaps some of the readers of the *Sentinel* will open their eyes to know that a *lynx*, four feet long, was captured yesterday on the farm of Mr. ANDREW CHILD, in this town, by Messrs. BENNETT and DODGE.

The varmint was in good order, and his dimentions are considered *huge*. N. P. H.

RACINE COLLEGE.—The customary examinations were held in our college, last week, closing the autumnal session, and we are happy to learn that they were generally very creditable to the Faculty and students. The state of the weather, and the High School exercises prevented a large attendance of visitors, except at the exhibition, on Thursday afternoon, when the College Chapel was crowded with the young, the fair, and the wise of our city. The declamations were all good, and the themes well-selected; but the original orations of H. L. Janes, S. C. Rice, and John A. Gates, were particularly deserving of commendation. The College, as we are informed, was never in a more flourishing condition than at present; and another building is greatly needed to accommodate those students from abroad who, at this very time are applying for admission but cannot be received, for lack of room.—*Racine Advocate.*

The citizens of Racine may will be proud of this excellent institution. They ought to take measures at once for providing an additional building for its use.

A Beginning.

From the New York Evening Post.

Fifty-seven members of the House of Representatives, yesterday, voted against Mr. Etheridge's resolution condemning the slave trade as a horrid and inhuman traffic, and depreciating its revival as an offence against Christianity and civilization. Fifty-seven members are not prepared to say that the traffic is an inhuman and disgraceful one.

The vote for the resolution was one hundred and fifty two, or a little less than three to one.—There are some who regard this as a triumph for the cause of philanthropy and humanity—but have they considered whether there is any good reason for rejoicing? Have not the friends of the slave trade made what they may well regard as an auspicious beginning? If a vote had been taken on the question thirteen years since, when Mr. Tyler sent in his message against the slave trade, we doubt whether a single vote in either House would have been given against the dissolution. Now we have fifty-seven members in that branch of the legislature in which pro-slavery has the least strength, attempting to vote down a resolution expressive of the natural and general detestation in which every heart, not hardened by custom, or interest, or some other cause, must hold the traffic in human beings.—More than half of Mr. Buchanan's party in the House of Representatives registered their names against Mr. Etheridge's resolution.

It is true that some of them proposed to vote against the resolution because it was unseasonable. We all know what that means. The Wilmot Proviso was at first opposed because it was unseasonable, by members of Congress who afterwards opposed it because it was, as they said, unconstitutional and unjust to the South. The fifty-seven, in another session of Congress, will probably be bolder. What they now object to as ill-timed, they will then denounce as ill-grounded. The party formed for the repeal of the Missouri Compromise grew up from a small beginning—smaller than that of these friends of the slave trade. It was feeble at first—a few bold-faced leaders with a few hesitating and equivocating followers—yet it triumphed at last.

Instead, therefore, of regarding the vote of yesterday in the light in which some seem to regard it, as a final and decisive triumph of the right, we look upon it as the formation of a distinct party for the revival of the slave trade.—Let such a resolution as that of Mr. Etheridge be brought forward in the next Congress, and the vote against it will be stronger, and the language of its adversaries will be more decided, than it was yesterday.

For the Sentinel.

A Chapter on Peat—The Dane Co. Beds

Peat is a deposit of decayed vegetable matter, generally found within depressions on the surface of uncultivated lands, and when fully matured, which requires a lapse of untold centuries, acquires a black or brown color, while the more recent formations have a yellowish cast. When saturated with water, as it is generally found in its native bed, it is of a viscid consistance, and yields readily to the efforts of a sharp blade, but becomes very hard after exposure to the sun and air, thus rendering it as easy and clean to handle as wood, and in every respect as unexceptionable as house fuel, giving a steady, radiant heat, with but little smoke. It abounds extensively in England, Ireland and Scotland, in which countries it is cut in pieces of a rectangular *form*, and when sufficiently dry to be removed, is taken to the locality where it is to be used, put under cover, or in large stacks, and thatched with straw to shed the rain, being thus preserved for winter use. In some countries it is found upon the hill-side, and is called hill peat, although it is not probable that any of this nature is to be found in Wisconsin, for even the hills are of rare occurrence, and the atmosphere not sufficiently humid for its formation on declivities. In Europe it has been *charred*, and iron and other metals smelted with it and in this condition is also valuable as a steam generator, equally as much so as *coke*, which it much resembles.

I have given this short and imperfect peat-history to draw attention to its value as a fuel, believing, from the geological formation of our State, that other beds beside the ones recently found near Madison, are within our borders, and probably in localities where wood is comparatively scarce. To any but a practical eye, what is second only to coal as a fuel (in some respects) might seem as some one of the various colored alluvial deposits in which our State so richly abounds, and the experiment of *testing* the matter in the swamps and "swails" may repay the explorer a thousand fold.

Upon a recent visit to Madison, I was shown by Mr. Hough, County Surveyor, a plat of the peat bog found upon the lands of Col's W. B. & G. H. Slaughter and Wm. Green, lying 6 miles west of that town, and immediately upon the M. & M. Railroad. There are three irregularly shaped beds, contiguous to each other, which lie in depressions of the surface, and the whole outline gives unmistakable evidence of having at a remote period, been covered with water, indeed forming at that time one of the beautiful lakes which adorn Dane County, although the growth and decay of the peat moss and the peat formation is consequent upon the subsidence of the waters. Mr. Hough, having accurately measured the depth and extent of each bed, gives the following as the number of *solid* cords in each:

No. 1, about 40 acres, average depth, 15 feet,	204,187
No. 2, about 50 acres, average depth, 3½ feet,	59,555
No. 3, about 25 acres, average depth 10 feet,	85,078
	348,820

Thus it will be seen that in a county as sparsely wooded as Dane, these beds must be of great value, as they can be readily worked, and each cord will prove at least worth double, if not threefold the price of wood. Feeling an interest in the matter, Col. W. B. Slaughter, at my solicitation, kindly forwarded me about two bushels, with which I have tested its comparative relation to wood and coal, so far as I was able with that quantity. In company with an intelligent Irishman, who informed me that in density of endurance, it was far superior to the Irish peat—(not so inflammable, nor invested with the peculiar odor in burning), I instituted some experiments,—in the first place by burning in a Blacksmith's forge, where it gave out a steady, brilliant heat, though not as intense as that of bituminous coal, yet heating iron readily. We placed a peck of it with an equal amount of Briar Hill coal in an open coal-grate and found it not only to outlast the coal, but to give a far preferable fire, quiet, pleasant, not snappishly inclined, and free from the odious smoke and soot of coal, which will be a great *desideratum* to neat housekeepers.

We put a common tobacco pipe full of the peat, after closing the top with clay, on the coals, and gas immediately issued from the stem and readily ignited, and the peat *will* produce large quantities of gas, but our experiments in that line are not yet concluded. The enclosed article from the National *Intelligencer* will prove interesting:

> PEAT GAS.—The National Intelligencer says that in measuring the comparative illuminating powers of coal and peat gas, the result has been found to be in favor of peat, its power being 842, while that of coal gas is 100. The manufacture of peat gas is more simple than that of coal. The peat, if put into an iron retort heated to a low red heat, affords immediately a mixture of permanent gases and vapors which condense into an oleaginous liquid, which two products separate on cooling. The oil is subject to a new distillation, and resolved wholly into a permanent gas and hydrogen very richly carburetted.

Very extensive beds of peat are claimed to exist in this vicinity, which if the statement of the Intelligencer be correct, *will* be extremely valuable.

The owners are making arrangements to work the beds extensively during the next season, and I predict for it a large sale, even within our own city, should its cost be even greater than coal, solely on account of its cleanliness. My credulity was heavily taxed while at Madison, through the stories told of its comparative value with wood in generating steam, at a steam saw mill in the neighborhood of the beds, but I must confess myself astonished at my own experiments, proving it of far more value than I deemed possible, and worth not less than $1,000,000 to the fortunate owners, should no other extensive beds be discovered to mar its value. Surely such unheard of "*diggings*" ought to stimulate other explorations. Specimens may be seen at my office.

A. J. LANGWORTHY.

P. S.—I have been permitted to add the following communication from Chancellor Lathrop and the other Professors, as to the value of the Peat beds.

UNIVERSITY OF WISCONSIN,
December 18, '56.

COL. SLAUGHTER—

DEAR SIR: The sparseness of timber in this region, and our distance from the coal measures of Illinois, render the discovery of your extensive and valuable peat deposits a matter of very great interest to our citizens. The experiments I have witnessed demonstrate its ready combustibility and fine heating qualities. You have my best wishes in the enterprise you have undertaken, to introduce the article into domestic use, and to make it available for productive purposes in the arts, and thus to supply a felt want in this community.

I am looking to the results of your enterprise for the means of reducing sensibly the expense of heating the rooms of the State University, which the increasing price of wood will render a matter of very serious concern to the Institution.

Hoping, dear Colonel, that you will not forget yourself in your benefactions towards the community,

I am, very truly, yours, &c.

J. H. LATHROP.
Chancellor of the University.

We concur in the above,

J. W. STERLING,
O. M. CONOVER, Professors of the University.
C. S. CARR,

(Dr. Carr suggests further experiments here, and also that you take with you specimens to Professor Hayes, of Boston, for analysis and trial.)

GOVERNOR OF MINNESOTA.—We learn that the friends of Judge Samuel Crawford will present his name for the office of Governor of Minnesota. Few men are better qualified for that post than Judge Crawford. We doubt very much, however, whether he would seek the office.—*Madison Democrat.*

Inasmuch as Minnesota is about to come into the Union, and elect her own Governor, it is doubtful whether such an appointment would sufficiently console Mr. Crawford for his defeat at the hands of the people of Western Wisconsin.

The Wreck of the Ships New York and Tasso.

Mutiny of the seamen.

From the N. Y. Tribune, Dec. 23d.

The unknown vessel, three miles south of Barnegat, which was stated to be a total wreck in the *Tribune* of yesterday, was visited about noon by our reporter, who left the city soon after midnight for that purpose. He found her to be the bark Tasso, Capt. Goldsmith, of St. John's, Newfoundland. Six lives have been lost by this wreck—*four* of the crew, and two men from the shore. In spite of a terrible sea, and the warnings of their friends, these two shoremen—John Packer and John Jones—thinking that there was no other chance of safety for those on board, heroically put off, and, after a hard struggle, were so fortunate as to reach the vessel. Four of the crew were taken on board, and their noble efforts seemed just about to be crowned with success, when the boat stove and went down. The sea was too high for the strongest swimmer to contend against, and they sank in a few moments. With them went down the hopes of those were watching them from the shore and from the deck of the vessel. It is long since the sea closed over two more noble vessels. The rest of the crew were subsequently saved, but the vessel will be a total loss. She was from Rio de Janeiro, with a cargo of coffe and logwood.

The passengers from the ship New York have all been landed, but their situation is most deplorable. They have scarcely any shelter, and very few provisions. For the last twenty-four hours they have had nothing to eat but three hard biscuits apiece, and their sufferings from hunger and exposure have been so great that one man died last night. There were no provisions in the Station-House or on the beach. Capt. F. J. Braman has just sent them a load of provisions; when they reach the beach, the sufferers will be relieved for the present.

Seven of the cabin passengers of the New-York have already reached Squam Beach on their way to the city. They report that the Captain of the New-York set them ashore in the long boat, and on his return to the vessel with the boat he found that the crew had taken possession of the capin. Not only so, but they fell upon him and mauled him, so that it is doubtful whether he is living.

Destruction of the steamship Knoxville—Loss about Two Hundred Thousand Dollars.

Last evening about 8 o'clock the private watchman engaged on the steamship *Knoxville*, lying at pier No. 4 North River, foot of Morris street, discovered smoke issuing from the engine room, and upon a hasty examination found that the vessel was on fire. The alarm was promptly given, and in a short time thereafter the firemen of the lower districts were at the scene of action, despite the snow storm that was raging, and the almost impassable condition of the streets. Several streams of water were immediately poured into the hold, but without avail. The steady volume of smoke which for half an hour or more continued to ascend from the hatchway, now gave way to as large a body of flames, which soon enveloped the masts and rigging. The dock at which the steamer lay was filled with firemen, while the neighboring piers and vessels in the vicinity were crowded with spectators.

At an early stage of the fire a boy about 10 or 12 years of age appeared aft near the helm and commenced coiling a quantity of rope with a view to save it. Regardless of the gaze of the hundreds of people about the burning vessel whose notice he had attracted, he continued at his work, until a large cloud of smoke wafted over him, and the loud shouts of the firemen warned him of his danger. Leaving his post he made his way along the space between the cabin and the bulwarks, and at length gained a port hole through which a large hawser passed, securing the vessel to the pier. This hawser was covered with ice, but the brave little fellow clung to it and thus made his way to the pier, where he was greeted with loud cheers from the firemen.

The scene now became one of great brilliancy, the flames illuminating the river and opposite shores for a considerable distance. The effects of the light upon the falling snow was beautiful, and the atmosphere seemed filled with sparkling jewels.

An attempt was made to save the hull by scuttling, but this proved ineffectual, as the vessel, from the shallowness of the water in the dock, soon grounded. She was burned to the water's edge, and may be considered a total loss. Her engine and works will be worthless except for old iron.

The *Knoxville* was built about two years ago by William H. Webb, and cost, when completed, upward of $200,000.—*N. Y. Tribune, 23d.*

AN INTERESTING COINCIDENCE.—We remember few coincidences in the history of science more remarkable than one which is alluded to in the following brief extract from a letter written by a professor in the National Observatory at Washington to a scientific friend in this city. Speaking of an observation made by Colonel Fremont of an occultation of the planet Mars on the 11th February 1854, at the western base of the Rocky Mountains, the writer says:

"It is a little curious, that the only other observation of this occultation of Mars which I have been able to find was by Dr. Kane, in the midst of Polar ice."

The similarity in the circumstances, in themselves so remarkable, and in the occupation of the two men, makes the fact of their being the only known observers of the phenomenon alluded to a coincidence of no *ordinary* interest. Both were surrounded by snow and ice, and reduced to extremities for want of food; both were laboring with an almost unparalleled devotion and disinterestedness for the promotion of geographical knowledge; and though many thousand miles apart, their separate enthusiasms were mirrored in the same star, which was silently revealing to both, the distance they had wandered from their homes and the way to return to them.

FROZEN TO DEATH.—On the 12th inst. the wife of the Rev. Elder PECK, of Lind in this county, who has been deranged for a few week past, escaped from the house very late in the evening almost entirely destitute of clothing, the thermometer being below zero, and in attempting to go to her sister, about a mile and a half distant, became so chilled as to be unable to travel and lay down in the shelter of a corner of the fence. When her afflicted husband found her she was alive, but he was unable to carry her to the house, and when help was procured it was too late, she died before she could be sheltered from the cold. She was an amiable woman, and her derangement was caused by working beyond her strength during the sickness of her husband and of a son who died some weeks before. She leaves two small children which are scarcely old enough to be sensible of their loss.

A NOBLE, DARING FEAT.—One of Beloit's fair daughters yesterday accomplished one of the most bold, daring and successful feats on record, and one which is not only worthy of being recorded but which will ever be considered, *among* those who fully understand all the circumstances, as almost miraculous. At about 3 P. M. the pedestrian who cast an eye up Broadway, might have seen a gay and powerful span of Western bays before a fine well-robed sleigh, containing a gentleman, lady and child, dashing down the street regardless of all restraint, at their utmost speed, which probably, was not less than twenty-five miles per hour; when the lady, regarding all as lost and destruction almost inevitable, with noble presence of mind and unerring fortitude, carefully prepared her little niece for a clear lunge into the first large snow drift, and herself for the next one. Suiting her action to the thought, she deliberately and carefully cleared herself from all entanglements, and holding the child aloft and clear over the side, quietly dropped it as intended. Then quietly drawing herself up, gave a leap which brought her nearly to her waist in snow, but on her feet, erect. Both came off unharmed, while the gentleman went the rounds and finally brought *up* without serious harm. Let all beat this who can.—*Beloit Journal.*

KENOSHA & BELOIT RAILROAD—ELECTION OF OFFICERS.—At the Annual Meeting of the stockholders of the K. & B. R. R. Co., held last Monday, at 2 P. M., Messrs J. Bond, S. Hale, J. V. Ayer, Dewitt Campbell, F. W. Lyman, L. Burgess, F. Paddock, S. W. Benson, C. H. Spafford, C. M. Fowler, J. H. Kimball, E. W. Blinn, L. G. Merrill, and Z. G. Simmons were elected Directors, who with S. B. Scott, the City R. R. Commissioner, will constitute the Board for the ensuing year.

The Chief Engineer read a very interesting report, as to the progress and present condition of the road.

At a meeting of the new Board of Directors held after the adjournment of the Stockholders, J. Bond was re-elected President, S. Hale, Vice President, L. Burnell, of Milwaukee was elected Secretary, C. C. Sholes, Treasurer, and W. H. Noble, Chief Engineer.

The Executive Committee are J. Bond, S. Hale, L. G. Merrill, and Z. G. Simmons.

The Finance Committee—F. W. Lyman, E. W. Blinn, and J. H. Kimball.—*Kenosha Telegraph.*

A JOKE AT THE PROFESSION.—In the trial of HUNTINGTON, the New York forger, his father testified as follows:

"His son Charles was prone to take things that did not belong to him, had altered the family record, and would tell untruths—giving two different stories about the same fact, without any motive for it. *Witness had designed to make him a lawyer.*

NEW BRIDGE AT BERLIN.—The contract for a new bridge over the Fox River at Berlin, Marquette Co., has just been let, at $5,500, to be completed by the 1st of May next.

Business at Ogdensburgh.

Correspondence of Toronto Globe, Dec. 16.

Thinking some of your produce shippers may be interested in knowing the prospect of connection this winter between Prescott and Ogdensburgh, I give you things as I find them. On arriving at Prescott, by Grand Trunk Road, you are immediately driven down to the Ferry Boat, which connects at the depot at Ogdensburgh with the trains for New England States, at Boston, at half past 5 A. M., and 6 o'clock P. M. At present the Ferry Boat makes a trip an hour. As soon as the ice becomes sufficiently strong to prevent her running, one of Messrs. Crawford & Co.'s propellers, now being prepared, will take the route and keep it open until the ice is firm for crossing.

I find the quantity of flour in store is now reduced to 120,000 barrels, and as the Ogdensburgh road send away 8,000 barrels daily this quantity will soon be cleared out. There is a fair quantity of goods arriving daily, for Canada, at this point for shipment west by the Grand Trunk Road, but there is some delay at present on account of the complement of freight cars on that road not being sufficient to meet the demand. This, however, will be remedied soon.

The Ferry Boat Howard was cut through by ice on Tuesday, in towing out the schooner Anne Craig, bound up for Kingston, and sunk in 15 feet water. The crew barely saved their lives by jumping on board the schooner.

NOTICE.

BOERHAVE'S HOLLAND BITTERS is not, as some persons suppose, a substitute for brandy. It contains merely sufficient spirits to preserve it. We offer it to the public simply as a remedy which can be depended upon in most cases of Dyspepsia, Headache, and Indigestion. It will be found an excellent remedy for the many unpleasant effects attending a change of climate and water.

CAUTION!—Be careful to ask for Boerhave's Holland Bitters. The great popularity of this medicine has induced many imitations, which the public should guard against. Manufacturing Pharmaceutists and Chemists, Pittsburgh, Pa. and Druggists generally. dec22-d&w1t.

Dalley's Magical Pain Extractor.

THE great and principal characteristics of DALLEY'S MAGICAL PAIN EXTRACTOR consist:

1st. Of its never-failing and unique property, as soon as applied to any external injury, to CHECK INFLAMMATION instantly, and rapidly to reduce it. This feature constitutes its great power to alleviate the pain of burns and scalds, and of other painful diseases, in so incredibly short a space of time, and as will appear from the few testimonials hereunto annexed. Every intelligent mind is fully aware that, in all cases of external injury, the pain is produced by inflammation of the injured parts; and, therefore, if you remove the cause the effect must cease.

2d. Its purificative properties neutralize the poison that may lurk in the system, and will, when applied to the sores, draw rapidly all impure matter to the surface, and eject it—hence the great discharge it produces from sores occasioned by burns—and when applied to old, inveterate sores, Salt Rheum, or other cutaneous diseases.

Each box of GENUINE DALLEY'S PAIN EXTRACTOR has upon it a Steel Plate Engraved Label with the signature of C. V. CLICKENER & CO., proprietors, and HENRY DALLEY, manufacturer. All others are counterfeit.—Price 25 cents per box.

☞ All should be addressed to C. V. Clickener & Co., 81 Barclay street, New York.

STEALING A PAIR OF GLOVES —A man named Michael Connor was arrested on Christmas day, by Policeman Garlick, for stealing a pair of gloves from Hoffman & Co The prisoner claimed to have bought them from a "fair haired woman on Huron street" The case was sent to the Grand Jury without an examination in the Police Court.

Lecture To-Night.

We make this announcement for the first time this season, and we do it now, with the full belief that the lecture *to night* is to be of the very highest order, and we make the statement deliberately, for if the testimony of some of the best scholars of our country is to be regarded, Mr GODDARD "among remarkable men is a very remarkable man," and his lecture will be such a treat as has never before been offered in Milwaukee

GEO. S. HILLARD says of him

"A man who is more simply and thoroughly a scholar I have never seen certainly not in this country Under many disadvantages, and though still young he has read much, and not in very familiar paths, and thought still more. It is not improbable that there may be a question in some minds whether a young man, reared in the West, is exactly qualified to conduct a Boston audience into the higher regions of poetry and art But on this point the community may feel a confident assurance

Mr. Goddard has a mind of remarkable originality and power. He had thought more than he has studied, and studied more than he has read His genius little moved by the influences around him, has obeyed self derived impulses, and in many directions has reached a remarkable development For metaphysical acuteness, powers of sharp analysis, a taste as well as capacity for tracing back all phenomena to their ultimate principles, it would not be easy to find his equal

His two lectures on Art were heard by a mere handful of persons, but among them there was but one opinion as to their depth, originality and power They were striking, ingenious and suggestive, sometimes perhaps, bending facts a little to conform to a preconceived theory, sometimes moving with a confident step over rather doubtful ground, but seizing upon the attention with a strong grasp, and never releasing their hold and crowding thoughts, principles and illustrations so rapidly upon the mind that the mere act of attention became dulled with the dignity of labor

It is on such testimony as this, concurred in by PARK GODWIN, PRESCOTT and LONGFELLOW that we have said that the lecture to night will be of the highest order We do not suppose that he is a *popular* lecturer but we trust that he may find that Milwaukee can give a fit audience to a fine lecturer.

BURGLARY AND ROBBERY IN A CATHOLIC CHURCH —Early yesterday morning St Mary's (Catholic) Church, in this city, was broken into and robbed of about $200 in money, the contributions taken up on Christmas for the benefit of the orphans of the Church

A man named Joseph Le Page, a Frenchman, who had been in the city a short time, was promptly arrested by Policeman Kessler and taken to the Watch House Policemen Capron and Garlick traced out the stopping place of the prisoner and obtained his baggage Circumstances of strong suspicion were discovered which led the officers to detain Le Page, and his case will go at once before the Grand Jury, now in session

The River clear of Ice.

Below Walker's Pt Bridge, and out through the Straight Cut, the river is clear of ice, while above the lee bridge is solid as need be The effect of the opening of the straight cut harbor into the lake in relation to the facility of keeping the channel clear in winter for the use of the Grand Haven steamers, has not, we think, been fully appreciated There seems to exist a strong probability that, with the occasional use of a tug, the westerly winds will keep the river clear below the bridge.

PUTNAM AND HOUSEHOLD WORDS FOR JANUARY —We are indebted to WILSON for early copies of these valuable monthlies

Putnam is, to our mind, altogether the best of the best of the American Monthlies, and the publishers do not grow careless of its reputation, but keep it always at "highwater mark" The number before us is full of interesting articles

Household Words is always welcome, with its great and admirable variety of good reading, suited to every sort of good taste

UNION GUARD'S BALL.—The ball of the Union Guard last night was very largely attended, and greatly enjoyed The music was furnished by the Northwestern Band, and the supper by the host of the Albion All passed off well

THE MEDICAL TRINITY

EACH of Radway's Three Remedies possesses special curative powers over certain diseases and when either the Ready Relief, Renovating Resolvent, or the Regulators, are used for the certain class of diseases they are specially designed for, the system undergoes a rapid transformation from its diseased condition to a healthy and happy state of existence

RADWAY'S READY RELIEF.

This remedy is to be used externally, or taken internally for all pains, aches and infirmities In a few minutes it stops the most torturing pains, subdues all inflammations and cures the worst cases of *Rheumatism, Lumbago, Gout, Paralysis, Neuralgia, Tooth-ache, Burns Sprains, Strains, &c* It restores the *lame, inflamed and crippled to soundness and vigor* It is likewise a certain cure and preventative for *Fever and Ague, Scarlet Fever, Smallpox, Croup, Hoarseness Colds and Influenza*. Whenever you feel any unpleasant or painful symptoms take a dose of Radway's Ready Relief, or apply it to the parts where the pain is located, in a short time you will enjoy ease and comfort

Bear in mind, there is no pain so severe but that Radway's Ready Relief will stop, but no system so crippled with infirmities but that the R R R remedies will restore to sound and vigorous health

RADWAY'S REGULATORS.

The discovery of these wonderful pills establishes a new era in purgatives, and a new principle in the science of medicine. In taking these pills no griping pains or sickness at stomach is experienced, they operate naturally, leaving the bowels, liver and other organs in a natural condition

They insure those who take them a good appetite or a healthy digestion

Each pill that is taken gives new life to the blood, they purify it, take from it all impure deposits and equalize its circulation

One or two doses of Radway's Regulators will entirely remove all distressing symptoms of Dyspepsia, Jaundice, Nervousness, Indigestion, Costiveness, Liver Complaint Billiousness, Melancholy, and will cure all organic diseases, either in man or woman Ladies troubled with irregularities or weakening discharges, may rely upon a prompt cure and regular periods if Radway's Regulators are taken

PICTURE OF HEALTH AND BEAUTY

A few doses of Radway's Regulators will insure a clear, fair, pure and healthy skin and a rosy complexion They give to those troubled with weak dull, yellow eyes, a clear and brilliant appearance Radway's pills give a natural beauty to the face, eyes and head, and the use of the Ready Relief as a wash for the teeth and an aromatic for the breath, will change the most disgusting foul breath to sweetness, and the blackest teeth to Parian whiteness

One to ten of Radway's Regulators is a dose, they never do injury, but always do good

CONGESTIVE DISEASES, APOPLEXY, TERMINATION OF BLOOD TO THE HEAD

Persons of full blooded plethoric habits are more subject to congestive diseases, headaches, rush of blood to the head, than those of a lean habit, bleeding in these cases is highly detrimental, nor does this practice lessen the danger, the difficulty is not caused by too much blood, but by its disturbed circulation, and the irregular action of the *heart* Now a dose of Radway's Regulators will correct all these difficulties—they will *correct* the action of the heart, liver, and all other organs to a natural and regular action, and will immediately *equalize* the circulation of the blood Mere purging in these cases will only aggravate the disease

Radway's Regulators not only *regulates* the bowels, by which all diseased and injurious matter is purged from *the body*, but they control the whole system, and, hence, each and every organ, the heart, brain, liver, nerves, bowels, skin, pancreas, bladder, kidneys, stomach, lungs, throat, blood, and every tissue in the whole organization, to a healthy and regular action. They infuse new life throughout the whole system, their action is not confined to any local part of the stomach, like common pills, but they search out diseased action wherever it may be hidden, and expel all diseased humors and deposits from the body In a few hours after taking a dose of these life creating pills you feel refreshed and invigorated from head to foot. We have known the dispirited and melancholy take a dose of Radway's Regulators *just to feel good—they make one feel so happy*

RADWAY'S RENOVATING RESOLVENT

Cures Humors, Salt Rheum, Scrofula, Ulcers, Nodes, Tumors, Fever Sores, Skin Eruptions Blotches, Bronchitis, Dyspepsia, Gout, Dropsy, Syphilis Consumption, Apoplexy, &c., and all constitutional and chronic diseases, either inherited by hereditary transmission or inoculated by exposure or otherwise

There is no remedy in the world that will work such miraculous cures in old diseases as Radway's Resolvent It changes the whole human body—reproduces new and healthy blood

☞ Bleeding from the lungs—Radway's Renovating Resolvent will, in a few minutes, check Hemorrhage from the lungs or throat In cases where the patient coughs up clots of blood or pus streaked with blood Radway's Resolvent will soon remove the difficulty

☞ Sarah Hammond, of 193 East Thirty Second st, had a bad cough for two years, she coughed up sometimes half a pint of blood during the night She was cured in seven days by the Relief and Resolvent

☞ A sore leg of 21 years cured in three weeks, by Radway's Relief Mr T H Kidgo, a merchant of high standing in Dahlonega, Ga., says —"That a gentleman who, for 21 years, had been afflicted with a sore leg, that resisted every kind of treatment was effectually cured in three weeks by Radway's Ready Relief Resolvent and Regulators."

GENERAL COMPLAINTS

If you catch a sudden cold, get a sore throat or become afflicted with influenza, a dose of Radway's Regulators, and an application of the Ready Relief, will free you from all pain and uneasiness. In a few minutes after the Relief is applied no soreness will trouble you If afflicted with headache, either nervous or from foul stomach, Radway's Ready Relief, and a dose of Regulators, will remove all pain from the head, and restore health to the nerves and afflicted.

Radway's Ready Relief and Regulators always cures *Dyspepsia* in its most distressing forms, and nervousness with all its horrors

☞ WHOOPING COUGH —Thousands of cases of Whooping Cough have been cured in a few days by the Resolvent and Relief and if the Whooping Cough is prevalent in the neighborhood those who take half a teaspoonful of Ready Relief in a little water, once or twice per day, will never catch it. Radway's Relief destroys the infection of the "Whooping Cough."

☞ TOBACCO CHEWERS —Those who have become *reduced* by the effect of tobacco or the indulgence in spirituous liquors, who feel the horrors of incapacity, weakness, sterility, and the *infirmities* which a fast and intemperate, luxurious and lustful course of life inflicts upon its victims, will find relief from these horrors and sure restoration to health, strength and vigor, by the use of Radway's Relief, Regulators and Resolvent

NOTICE.

OFFICE OF THE MILWAUKEE & MISSISSIPPI R R Co,
Milwaukee, December 19, 1856

WHEREAS, the granting of Free Passes, and the applications for the same, are increasing daily, under the present system, notwithstanding the efforts of Railroad Managers here and elsewhere, to keep the same within *reasonable bounds* and, whereas in the opinion of the Board of Directors of this Company, the practice is highly unjust to the Stockholders and injurious to the whole Railroad system as, in many instances the income of Railroad Companies is very sensibly affected by it, and under the most judicious management, in a vast majority of cases only results in dissatisfaction And whereas, the President and Superintendent of this Company having become satisfied, from actual experience that the *right, by them* to issue *Free Passes* cannot *be exercised* with that limit and discrimination which was expected when the right was conferred nor can it be done to a limited degree without producing much dissatisfaction, for nearly every person who applies for a Free Pass no matter to him what are the circumstances of the case, if he is refused at once charges the Officer or Company with partiality and meanness and, whereas, they (the President and Superintendent) have requested that the right be withheld *from them* as well as from all other Officers of the Company, except in the cases hereafter mentioned,

Therefore be it Resolved That from and after January 1, 1857 all outstanding Free Passes at that time except those of Contractors Telegraph Companies and Express Agents,) be taken up by the Conductors and returned to the Superintendent and that no Officers of this Company shall have the right to grant Free Passes except the President or Superintendent may grant them to the President and Vice President, Treasurer, Superintendent and Assistant Superintendent Secretary and General Traveling, Freight and Ticket Agents of such Railroad Companies as reciprocate to the same class of Officers

Resolved That we respectfully solicit the aid of other Railroad Companies in this reform, so much demanded in Railroad management that the system may become uniform

Resolved That the Secretary furnish a copy of the above Preamble and Resolutions to Railroad Companies, and that the same be printed and placed in all the Depots and Passenger Cars of this Company

The foregoing Preamble and Resolutions were unanimously adopted at a meeting of the Board of Directors of this Company held this day

The Best Water-Wheel of the Day.

WE WOULD CALL THE ATTENTION of

Mill Owners, Manufacturers and Owners OF WATER POWER!

TO THE

HAVILAND & TUTTLE

WATER-WHEEL,

As being by far the best and most desirable wheel—cost durability and power being considered—yet invented—being equally as well adapted to a high as to a low head of water, running perfectly steady, occupying but little room, and

Is not Affected by Ice or Backwater,

Only in loss of head, and in addition to this, it

CAN BE SET WITH BUT LITTLE DELAY,

AND

At no Greater Expense than Inferior Wheels.

Having had the experience of many years in the construction of water wheels, and being thoroughly conversant with the principle and performance of every wheel yet introduced into the State, *we know* the TUTTLE WHEEL to be far superior to the best of them and in this statement we are backed by all who have given this wheel a trial. We have in our possession certificates from mill-owners who have used most of the different kinds of water wheels manufactured and introduced into this State, and they unhesitatingly give the preference to the TUTTLE WHEEL, in every instance In the Eastern and Southern States they are running in large numbers, and to the utmost satisfaction of their purchasers In Wisconsin, where it has only been introduced a few months, it has already won for itself an enviable reputation, and is generally conceded to be the best water wheel known

We give below the name and address of a few of the persons who have purchased the wheel in this State and we have permission to refer to them as fully coinciding in the views expressed above

C. B Barnes, Hebron Jefferson County
D E Bassett, Elba, Dodge County
Wm. Birge, Whitewater, Walworth County,
Edward Foster, Mayville, Dodge County
Harrison Ludington Milwaukee
George Dow, Cambridge, Jefferson County

And many others whose names are in our possession, and will be given on application

Any information desired in reference to this wheel, will be cheerfully given upon application to the manufacturers TURTON & BECOMB,
Eagle Foundry,
West Water street, Milwaukee

NOTES EXPLANATORY.

I HAVE received a number of communications, both verbal and written, in relation to my last advertisement offering "Notes Musical" for sale To save "time," I take this method of informing these single minded "parties" that I alluded to my avocation or profession which is that of a Teacher of the Piano Forte and Singing. What I meant by good investments was and is, that by giving your children a good education you give them that which cannot be taken away All those, therefore, who have requested this explanation, who may require such services as I offer, are most respectfully solicited to extend their patronage in this direction. To remove all doubts about the policy of so doing, I offer to teach here as I did in Virginia, by the Lesson—you can leave off at any moment

HEALTHY BREAD!

MADE WITH

JAS. PYLE'S DIETETIC SALERATUS

THIS article is deprived of the caustic impurities, so well known to exist in all common Saleratus, there by dealing destruction to thousands not aware of its injurious qualities. So destructive is it to the constitution of children, that where they and the parents have been regular consumers of Saleratus Bread, there is but little chance for recovery from infantile or contagious diseases In this way thousands meet with premature Death—the and reality of which is forcibly demonstrated, in the mortality among children, in the New England and other States, where warm bread and cake is so generally consumed

JAS. PYLE'S DIETETIC SALERATUS is of vast importance to the public, and is rapidly coming into use. Being deprived of all caustic impurities, it is quite as harmless as flour. In point of economy it excels having powerful raising properties, and is altogether superior to Baking Soda. No intelligent lady will dispute this after trying it.

It is packed in pound packages, each bearing the name of James Pyle, without which it is not genuine For sale by John Furlong & Co, C. A Folsom, Chapin & Gregory, Milwaukee, Eldridge, Shoemaker & Co., Madison H H Jones & Bro., Fond du Lac, Wis; A. Grant & Co., Chicago. JAMES PYLE,

IMPORTANT TO EVERYBODY.

FOR the last three years, I have been engaged in a business known only to myself and comparatively few others, whom I have instructed for the sum of $20 each which has averaged me at the rate of $2000 to $3000 per annum, and having made arrangements to go to Europe in the Fall of 1857 to engage in the same business I am willing to give full instructions to any person in the United States or Canadas, who will remit the sum of $1. I am induced from the success I have been favored with and the many thankful acknowledgements I have received from those whom I have instructed and who are making from $5 to $15 per day at it to give any person an opportunity to engage in this business, which is very pleasant, and very profitable, at a small cost. There is positively No Humbug in the matter. References of the best class can be given in regards it character, and I can refer to persons who I have instructed who will testify that they are making from $5 to $15 per day at the same. It is a business in which either ladies or gentlemen can engage, and with perfect ease make a very handsome income. Several ladies in various parts of New York State, Pennsylvania and Maryland, whom I have instructed, are now making from $3 to $8 per day at it. It is a GENERAL BUSINESS and but a few shillings is required to start it. Upon receipt of $1, I will immediately send to the applicant a printed circular containing full instructions in the art which can be perfectly understood at once.

MEDICAL.

BOERHAVE'S HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,

DISEASE OF THE KIDNEYS

LIVER COMPLAINT,

WEAKNESS OF ANY KIND

FEVER AND AGUE

And the various affections consequent upon a disordered

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections it has in many instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial possessed of singular remedial properties.

CAUTION!

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy any thing else until you have given BOERHAVE'S HOLLAND BITTERS a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

Every Man his own Miller.

PORTABLE CAST IRON GRAIN MILL.

Young America Improved and Perfected

THIS Mill was patented by Charles Leavett, of Ill. Feb 24th 1855. This mill took the first premium at the Ohio State Fair, 1855, over all other mills, and during the fall of 1855 the first premium over many others in the State Fairs of Ohio, New York, Tennessee, Michigan and Minnesota, also, at the County Fairs of the following Counties of Ohio and Indiana: [illegible], Crawford, Logan, Medina, Ashland, Knox, Montgomery, Clark, Erie, Lorain, Richland, [illegible], Chester, Frederick. In Indiana, [illegible], Jefferson, Wayne, Fayette, Shelby, Jennings, Warren and Fountain.

Farmers, Saw Mill owners, Livery Stable men and all those feeding stock of any kind are invited to examine the merits and superior advantages of the above mill.

The Young America will grind as much corn in the cob as [illegible], or in the [illegible] and all other grains for stock as any mill of the same size and with much less draft.

What we claim is strength, durability and simplicity, being so simple that a child can learn to grind with safety.

In the next we claim the small expense to renew the grinding parts of the mill, and the ease with which it is [illegible], the cost of not over three [illegible], which makes it superior and more economical than any other mill. The grinding parts of the above mill are made of the hardest of cast iron, as hard to fact as cast steel can be [illegible]. Each set will grind from 5,000 to 10,000 bushels [illegible] before [illegible]. Besides [illegible] set of grinders on the mill, an extra set will be sent with each mill sold, making it equal to two common mills. When found necessary to change the grinders, any man of [illegible] can do it in twenty minutes.

As a proof of the estimation in which the Young America is held in Ohio, we would state that during the fall, winter and spring, of 1855-56 [illegible] were made and sold in Ohio, at Zanesville, by Douglas Smith & Co., Hall & Allen of Mansfield, Eldridge & [illegible] of Cincinnati and at New Philadelphia.

All this [illegible] less than 200 being sold every week [illegible] besides those sold in other states east and west.

The above mill is being manufactured and can be furnished [illegible] from the Wisconsin Iron Works of A. J. Langworthy, on the water power in the City of Milwaukee, which is warranted perfect in all respects.

Dealers in agricultural implements and machines, of the State of Wisconsin are requested to call and make arrangements for the sale of the above mills, to whom a liberal discount will be made on the retail price, also any others wishing to engage in a profitable business. Would call a few young good men who have teams in any part of the State, who would peddle the mill through the country. Four can be carried on a wagon at a time—liberal arrangements would be made with them.

The above mill will grind from 5 to 40 bushels of grain per hour, in accordance with the kind and condition of the grain.

Price of the Young America $55—ready to hitch to and warranted to grind as fast as any mill of the same size when properly worked and with less draft.

For information address or see the undersigned, who [illegible] the right to the State of Wisconsin.

TO THE CITIZENS OF MILWAUKEE, And the Public Generally;

EXPELLED FROM MOBILE, ALABAMA, under the charge of selling incendiary or Abolition books, in which city I had built up the largest and most profitable book and stationery business done at the South, I have selected my new home in Milwaukee, and united my future welfare to the very promising destiny of that city. Compelled to remove my stock from Mobile, I have brought it to Milwaukee, and propose to carry on here a FIRST-CLASS

— AND —

BRIDAL GIFTS.

In offering myself as a candidate for a share of public patronage, I would assure the citizens of Wisconsin that I am satisfied, from the unusual facilities I possess in purchasing goods, and a thorough knowledge of my business that it is for their interest to call and examine my stock and prices before purchasing elsewhere.

I have been unable to rent a store large enough for my business before next Spring. I have therefore temporarily located at

No. 200 East Water Street,

TWO DOORS SOUTH OF WISCONSIN STREET.

Until I can secure a suitable stand.

Merchants from the country, teachers, and all others buying wholesale bills, are earnestly requested to examine my stock and prices.

WILLIAM STRICKLAND.

☞ To those curious in such matters, I would say, a plain statement of the facts connected with my expulsion from Mobile, detailing the circumstances, the action of the Vigilance Committee, and the way I escaped, can be found in Strickland's North-Western Almanac for 1857, which will be published in a few days, and distributed gratuitously.
